2011 - 2016: Head of Unit, DG CNECT, F3 - ICT Strategy and coordination.
2016 - Now: Pension

Experience:

September 1989 - now: European Commission, (DG XIII/INFSO/CNECT).
Since April 2016 retired from the Commission and currently senior advisor under the Active Senior programme.
2011-2016: Responsible for the overall coordination of the strategy and content of the ICT parts of the FP7, CIP and H2020 programmes. Responsible for the coordination with the other research and innovation DGs, most noticeable, DG RTD and GROW. Responsible for the management committees of the ICT parts of the FP7, CIP, CEF and H2020 programmes. Responsible for the Advisory Groups for ICT and FET. Responsible for the internal coordination of the ICT parts of the work programmes for the ICT parts of the CIP, CEF, FP7 and H2020 programmes and the internal coordination between the Research and Innovation Directorates. Representation of the DG in the coordination meetings between the R&I DGs.
2003-2011: Responsible for the operational aspects of the ICT programmes. Internal coordination of the operational aspects. Responsible for the ICT Committee, The CIP committee, the National Contact points and the coordination between the directorates.
Beginning 1999 - 2003: Head of sector, (G)F7. Responsible for IST programme information and documentation, internally and externally, responsible for the coordination of IST evaluations, responsible for NCP network, etc. In 2001/02 participation to the preparations of the management procedures for FP6 in the interservice groups. In 1998/99 participation to definition of management procedures (proposers guide, contract preparation, evaluation manual) for FP5.
September 1996 - 1999: Horizontal unit XIII C1, responsible for operations: editing of work programme, information packages, call texts, evaluation guidelines, review guidelines, guidelines for administrative procedures and for contractors administrative responsibilities (format for reports and deliverables), PR or dissemination of results, conferences, publications, NCP network etc. Planning and execution of Educational Multimedia Task Force and IADS calls and evaluation.
July 1996 - September 1996: PO, Urban and Rural Applications sector of TAP. Responsible for the IADS call and reviews and other management tasks.

September 1989 - July 1996: Joined the European Commission in July 1989 as an external consultant ('Expert'). Attached to the DELTA Unit (Developing European Learning through Technological Advance) in the then Directorate XIII F. Later on attached to the Education and Training Sector of the TAP programme, so mainly working with the development of advanced telematics networks and services applied to flexible and distance learning on a European scale. I was involved in all aspects of DELTA's activities:

- Co-ordination and monitoring of European collaborative projects in the Pilot experiment action line, use of multi-media and hypermedia techniques in courseware design including:
 - * organising the evaluation of proposals
 - * making guidelines for and performing the contract negotiation with consortia
 - * annual Technical Reviews of projects
 - * technical assessment of projects and deliverables
 - * periodic financial cost statement assessment
 - * subsequent re-negotiation of contracts, following technical reviews
 - Organisation of the periodic concertation meetings, bringing all 30 DELTA projects together for information exchange and harmonisation of approach.
 - Writing of strategic documents, like the workplans for the third and fourth FP
- In summary, I have participated to all aspects of the preparation and running of RTD programmes in the Telematics Applications Sector.

1985 - 1989

Jutland Open University: The work as Head of The Open University included close co-operation with national, regional and local authorities and all aspects of management and financial control. It also involved participation in different experiments with early versions of computer conferencing applications for distance teaching iunder early experiments with broadband services. For instance we established local study centres in what was then called "telecottages"

My responsibilities as Head of the Open University were to plan teaching, information to students, prepare and execute PR campaigns, co-operate with authorities at all levels and also with the national broadcaster and the news papers.

During this period, I managed a team of 50 teachers, a small secretariat and a small research and development team. I was also managing a significant research project contract with IBM-Europe (32 Million DKR) concerning the development of a computer conferencing system for distance teaching and other projects involving use of electronic media to support the distance teaching process in co-operation with research broadcasting and publishing organisations and was also managing pilot Delta and COMETT projects.

In those years I was also instrumental in establishing co-operative organisations on national and international basis:

- European Association of Distance Teaching Universities (EADTU)
- Danish Open University Association
- Scandinavian Association for computing in Higher Education
- Open Learning and Expert Systems Specialist Group, BCS

As part time scientific editor for Gyldendal, the largest Danish publishing house, I was working in the literary sector of the publishing house, edited and wrote part of a nine volume history of the Danish literature but also managed the development of the first electronic automated index and reference systems for the publishing house.

As university teacher and researcher, I researched and taught literature in a social and historical perspective, coached PH'd students, but I was also involved in the

administration and management of the university at all levels, institute, faculty and consistorium.

Latest publication:

Translation of Nicolas Negroponte: "Being Digital" from English to Danish: "Det digitale liv", KLIM, 1996; reprinted in 1997. Together with Søren Nipper and Klein Jacobsen.

交通指南

飯店位於高雄市中心三多商圈，方便通往小港機場、火車站、捷運站

停車資訊

- 歡迎使用國泰中央大樓地下停車場
- 位於 B4 ~ B5，共約 30 個停車位
- 訪客收費：NT\$40/小時
- 開放時間：24 小時
- 限高：1.7 公尺

會議室入口

和逸飯店(HOTEL COZZI)・高雄中山館 頂樓(30樓) 會議室 B
會議室入口，與該樓層餐廳共用入口。
